Dear Phil

I'm writing to say thank you very much for once again supporting Breakthrough Breast Cancer at this years Deva Diva's Triathlon, we really are very grateful. We've had some great feedback from our supporters and it sounds like another fantastic event. Please pass on our thanks to all at Chester Triathlon Club for their hard work and support of Breakthrough.

Thanks to the support of clubs like Chester Triathlon, we are able to continue building on our successes of our research units by opening another newly built research unit in Manchester later on this year. The scientists based in Manchester will be investigating molecular changes that take place at the earliest stages of breast cancer formation. Understanding the nature of these changes is essential if we are to develop new treatments and methods of diagnosis. The unit is ideally situated in the heart of one of the most exciting and world-renowned new initiatives to combat cancer. The unit's scientists will therefore be able to take advantage of a wealth of resources and expertise and will greatly benefit from interacting with some of the UK's finest cancer researchers.

Many thanks for your continued support of Breakthrough at the Deva Diva's Triathlon, Sally and the teams hard work, year in year out, will certainly help Breakthrough move one step closer towards our vision of a future free from the fear of breast cancer.

I look forward to speaking to you about next year's event.

Kind regards

Roger Finch
